

Thirteen Colonies Map Activity

Your work should be neat, complete, demonstrate that you put time and effort into this activity. I expect great work!

Step 1: Write your name and class period on the top right hand corner of your map paper

Step 2: Label all thirteen colonies on the map provided

Step 3: Outline the colonial the three colonial regions with a distinct color. It shouldn't be a mystery what to me where the boundaries of each region are located. (use a different color for each region and create a legend on the bottom left hand corner of your map page)

Step 4: Use the info sheets provided to add in what year each colony was founded (you may place this information by the name of the colony)

Step 5: Use the info sheets provided to find out the economy of each colonial region. Draw small illustrations to indicate the economy of each region (example: fishing draw a fish). Make sure to create a legend for your illustrations so I know what they mean. Locate it on the bottom right hand corner of your paper.
